

PTFE Guide Rails and Wear Strips

- Slippery/non-stick
- Excellent Chemical resistance
- Non-aging
- FDA Compliant/USP Class VI certified
- Continuous service temperature to 500 deg F
- Indefinite shelf life
- Reduces chatter and wear on metal conveyancing components
- Good flexibility
- Cost efficient/long-lasting
- Specialty/proprietary profiles available on special order
- Made in America/American Made/Made in the United States of America for DOD and military procurement preference

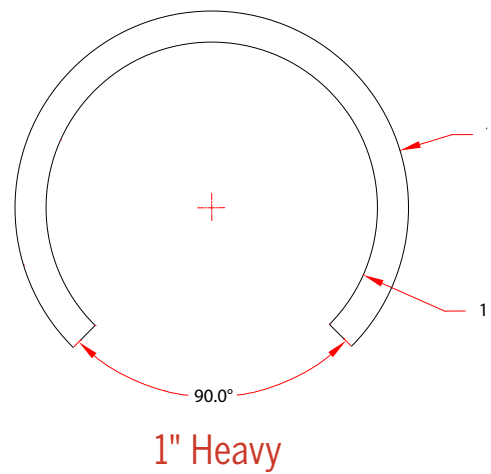

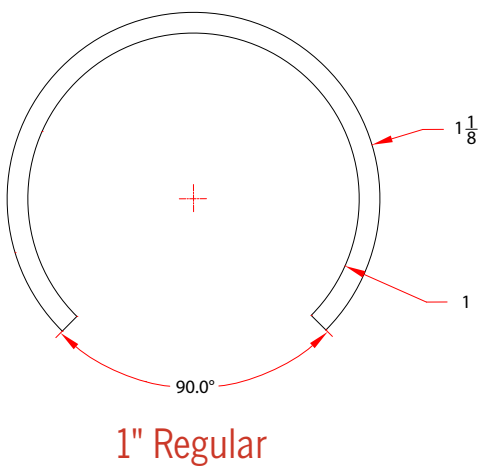

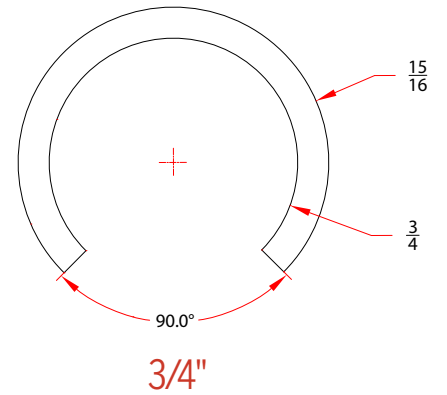

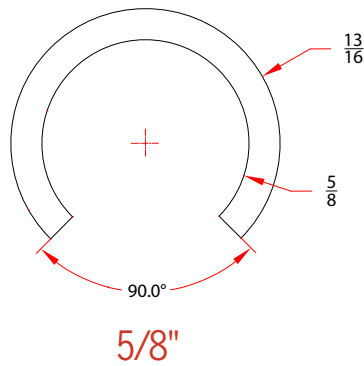

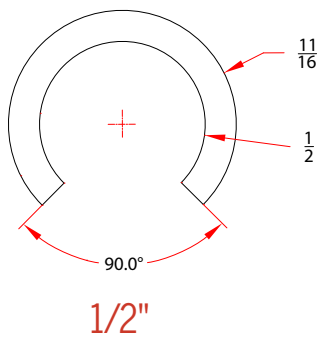

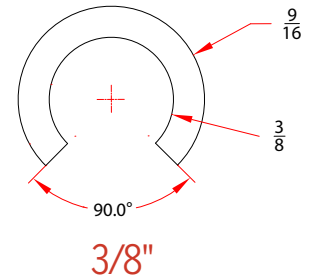

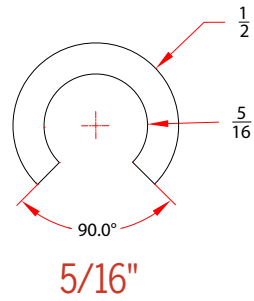

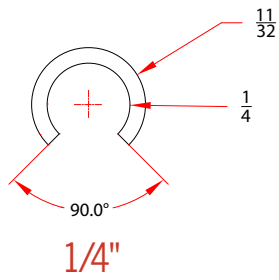

Uses and industries:

- Conveyancing systems where melt-processible plastics fail
- Food Processing and Beverage manufacture
- Pharmaceutical
- Oil and gas
- Aerospace
- Automotive
